Medical Company
Lahore, Punjab, Pakistan
help@heplin.com

Dear _____

I hope you are doing well. My name is Bilal Ahmed. I'm the CEO and founder of Hapleen and Heplin. I would like to share with you the details of our medical company that may be of benefit to you. We are starting a medical company called Hapleen.

Hapleen is a telemedicine company that provides medical services (online consultations, online appointments, online pharmacies, and online laboratory testing facilities). We offer online video consultations through our mobile app. People can find nearby doctors and hospitals and make an appointment with the doctor. It will save patients and doctors time.

We are launching Hapleen Medical App in Lahore, Islamabad, Sargodha, Khushab and Mianwali. We would like to list you in our app so we can expand this service in Mianwali. Here you can get more patients from Mianwali and if you offer video consultation service you can get patients from all over Pakistan.

Thousands of patients are looking for the right doctor online. Start your digital journey with Hapleen Medical Company. By joining us, you can get more patients and more popularity in Pakistan.

Join us and revolutionize the healthcare industry. If you are interested and would like more information, please contact us at help@heplin.com or call us at 0309-9995705. Our senior team members will visit your hospital and introduce our company in detail.

We are waiting for your reply, we will be very happy if you join us.

Best Regards

BILAL AHMAD

Founder at (Hapleen, and Heplin)
